WHY CHOOSE KYOCERA DOCUMENT SOLUTIONS?

WE'RE DIFFERENT. WE'RE ALWAYS COMMITTED TO BUSINESS PRODUCTIVITY.

THE RIGHT BUSINESS MODEL

Our hardware range and software solutions are designed to increase business efficiency, reduce costs and downtime, thereby optimising organisational productivity.

SUPPORT DESIGNED FOR YOU

As one of the leading vendors of Managed Document Services, KYOCERA Document Solutions offers comprehensive consulting, exceptional service and tailor-made solutions to support your business - no matter what the size.

HUMAN-SCALE SOLUTIONS

Our ability to deploy Managed Document Solutions at a regional, local and multi-national scale is among the best in the industry.

AWARD-WINNING HARDWARE

KYOCERA Document Solutions products receive ongoing awards by independent testing facilities. We pride ourselves in delivering only the best products to our customers.

SMART SOFTWARE

Only the best-of-breed print management software portfolio is used to add strategic value to our document solutions.

AGILITY

We are one of the most flexible of all Managed Document Solutions vendors, both in terms of solutions and services. We are readily available to consult and deliver tailor-made document solutions for your business.

TRUSTED EXPERTISE

We pride ourselves in training and testing our consultants regularly so customers receive only the best in industry standards through our highly qualified and trusted consultants and engineers.

READY TO DEPLOY

KYOCERA Document Solutions eliminates the need to invest time, money and valuable resources in designing your business document strategies.

EASY ON THE ENVIRONMENT

Our ECOSYS technology is unique to KYOCERA and significantly reduces environmental impact.

WHAT ARE MANAGED DOCUMENT SERVICES?

MANAGED DOCUMENT SERVICES (MDS) IS THE DESIGN, DEPLOYMENT AND SERVICING OF A CONTROLLED BUSINESS DOCUMENT ENVIRONMENT.

KYOCERA can help you bring ready-to-deploy MDS to market quickly, giving you access to a new high-margin revenue stream with no extra investment in skills.

WHY ADD MDS TO YOUR PORTFOLIO?

- > Broaden the scope of your service proposition and plug the gap in your current solutions.
- > Cut costs and increase business value for your clients without investing in new skills.
- > Strengthen your business tenders and unlock new revenues from existing contracts.

WHY MANAGED DOCUMENT SERVICES?

MDS is a proven business strategy and neatly aligns with some of the principal drivers of systems integration that includes:

- > Cost reduction and control.
- > Process and workflow optimisation.
- > Security and risk reduction.
- > Environmental sustainability.

THE AIMS OF MDS

At its simplest, Managed Document Services aim to achieve a reduction in costs.

Many MDS solutions are now broader in scope and optimise an enterprise's entire document workflow, both print and electronic, from input and throughput to security, storage and retrieval.

In doing so, they give business managers the ability to precisely control print policies, usage and spend, which creates strategic benefits across the whole business environment.

MDS CREATES VALUE BEYOND COST REDUCTION

- > Simplicity – A single consolidated contract for print hardware, consumables and maintenance.
- > Flexibility – Scalable in response to changing print volumes and staffing numbers.
- > Performance – Optimise internal processes to improve customer service.
- > Productivity – Eliminates time lost to inefficient print equipment and document workflows.
- > Sustainability – Saves energy, reduces paper use and demonstrates Corporate Social Responsibility.

POWERFUL, RELIABLE AND ECONOMICAL.

WHETHER ON YOUR DESKTOP OR IN OFFICE
PRODUCTION – BE IT IN COLOUR OR B/W:

With KYOCERA, you always achieve the best possible print quality and keep your output costs under control very easily.

KYOCERA devices and their components have been designed to be extremely reliable and highly economical. And since you can complement many of them with various options anytime, you can be sure that you always have a system fitted to your needs by your side. Whatever you need to print, copy, scan or fax – the numerous finishing options for our multifunctionals will provide you with a professional result.

LASER PRINTERS AND MULTIFUNCTIONALS

ECOSYS stands for ECOnomy, ECOlogy and SYStem printing. This concept is unique to KYOCERA and is based on our ceramics technology expertise. ECOSYS provides reliable imaging solutions with incredibly durable long-life internal components, highly economical running costs and produce significantly less waste during their lifetime.

ECOSYS is built with long-life components, especially the drum and developer unit, which ensures longevity and low printing costs. With toner as the only consumable, and waste reduced by up to 75%, the ECOSYS range is one of the most efficient and cost-effective printers in its class. Recycling is also more efficient as KYOCERA's toner cartridge comprises only 4 components compared to a conventional toner cartridge that can have as many as 60 components.

For easy and problem-free network integration, most ECOSYS devices have a common operating platform with standard controllers and drivers – significantly cutting the IT workload. Paper handling options are also universal across the respective product line.

TASKalfa MULTIFUNCTIONALS

Print, copy, scan and fax. TASKalfa multifunctionals offer exceptional productivity through outstanding speed, powerful controller technology and professional utilities.

For most of the devices, functions are accessible via a large, colour touch panel with intuitive controls and menu structure. Their long-life components guarantee exceptional reliability and minimal downtime. Most of the devices can be complemented with a range of intelligent technical features, as well as paper handling and finishing options, to improve their operating efficiency even further.

What's more, KYOCERA's software development platform HyPAS™, for personalised business applications, allows you to seamlessly integrate your MFP into your existing business workflow. Managing your document output has never been easier!

FLEXIBLE WORK GROUPS

The office workhorses, these printers will run and run and run, printing up to 60 pages per minute and integrate perfectly into any network environment. These devices have enhanced security features and flexible paper handling, with a maximum capacity of 2,600 sheets.

FS-2100D

- > Up to 40 pages per minute in A4 with up to 1,200 dpi resolution
- > Standard duplex unit for double-sided printing
- > 100-sheet multi-purpose tray, 500-sheet universal cassette
- > 5 line LCD display for easy navigation and clear messages
- > High capacity of 128 MB RAM as standard for complex documents
- > Convenient printing directly from USB Flash memory device
- > Powerful options for enhanced functionality and performance
- > Optional Gigabit or wireless network functionality
- > Exceptionally low printing costs in its class

FS-2100DN

- > Up to 40 pages per minute in A4 with up to 1,200 dpi resolution
- > Gigabit network functionality as standard
- > Standard duplex unit for double-sided printing
- > 100-sheet multi-purpose tray, 500-sheet universal cassette
- > 5 line LCD display for easy navigation and clear messages
- > 256 MB RAM for advanced functionality (Private Print)
- > Convenient printing directly from USB Flash memory device
- > Optional paper feeders for increased capacity and flexibility
- > Exceptionally low printing costs in its class

FS-4100DN

- > Up to 45 pages per minute in A with up to 1,200 dpi resolution
- > Gigabit network functionality as standard
- > Double-sided- and N-up-printing reduces paper consumption
- > A6 printing from internal paper cassette
- > 500-sheet paper output capacity for continuous printing
- > Alphanumeric keypad for easy password entering (Private Print)
- > Convenient printing directly from USB Flash memory device
- > Optional paper feeders for increased capacity and flexibility
- > Exceptionally low printing costs in its class

FS-4200DN

- > Up to 50 pages per minute in A4 with up to 1,200 dpi resolution
- > Gigabit network functionality as standard
- > Lowest power consumption (TEC) in its class (as of October 2012)
- > Duplex printing and N-up printing reduces paper consumption
- > Up to 6 paper trays for superior flexibility and high capacity
- > Alphanumeric keypad for easy password entering (Private Print)
- > Advanced document handling with optional SD cards
- > Long-life drum and developer lasts for 500,000 pages A4 Exceptionally low printing costs in its class

FS-4300DN

- > Up to 60 pages per minute in A4 with up to 1,200 dpi resolution
- > Gigabit network functionality as standard

A4 LASER MULTIFUNCTIONAL

SMALL WORK GROUPS

These robust all-rounders for smaller offices print 20-25 pages per minute in black and white and come with an automatic 40-sheet document feeder. The 2-line LCD display makes access to the device's print, copy, scan and fax functionality easy and convenient. KYOCERA's long-life technology and high toner yields reduce costs and ask demand less from our environment.

FS-1120MFP

- > Up to 20 pages per minute in A4
- > Print, copy, scan and fax functionality as standard
- > 40-sheet document processor
- > 2-line LCD display for clear messages and ease of use
- > Very compact size and small footprint
- > Highly reliable thanks to long-life components
- > Highest toner yield in its class
- > Exceptionally low printing costs

FS-1125MFP

- > Up to 25 pages per minute in A4
- > 250-sheet universal cassette
- > Print, copy, scan and fax functionality as standard
- > Automatic duplex print capability
- > USB and network connectivity as standard
- > Very compact size and small footprint
- > Highly reliable thanks to long-life components
- > High toner yield and exceptionally low printing costs

These compact A4 MFPs can increase the productivity of any office. They have print and copy speeds of up to 35 pages per minute and a time to first print of only 7 seconds. Their large-capacity document processor scans double-sided originals and makes it easy to master large digitisation projects. You can quickly and easily access all the functionalities needed via the well-structured 5-line LCD display.

ECOSYS M2530dn

- > Up to 30 pages per minute in A4
- > Time to first copy: 6.9 seconds
- > 5-line LCD display for clear messages and ease of use
- > Print, copy, scan and fax functionality as standard
- > Duplex unit for cost-saving double-sided printing
- > 50-sheet document processor scans double-sided originals
- > Copy double-sided ID cards on a single sheet of paper with ease
- > Exceptionally low printing costs in its class

ECOSYS M2035dn

- > Up to 35 pages per minute in A4
- > Time to first copy: 6.9 seconds
- > 50-sheet document processor scans double-sided originals
- > Up to 2 optional paper feeders for up to 800 sheets
- > High security through SSL, IPsec and Private Print * functionality
- > Print from and scan to USB flash drive
- > Exceptionally low printing costs in its class

* Requires additional memory.

A3 LASER MULTIFUNCTIONAL

LARGE WORK GROUPS

These days, office and business life is characterised by a dynamic and demanding work environment that absolutely has to be as efficient and productive as possible. The TASKalfa 6501i and 8001i MFPs have been designed for large departments or work groups that require high-volume output, demand exceptional reliability and insist on high productivity.

TASKalfa 6501i

- > Up to 65 A4 pages per minute in b/w
- > Standard 3 GB RAM and 320 GB or more HDD storage capacity
- > Standard network and mobile printing as well as colour scanning
- > Optional expandable fax functions: dual fax, network fax and Internet fax
- > Individual paper handling options including booklet and tri-folding
- > Wide range of media up to 300 g/m² and banner printing
- > Comprehensive security functions including IC card reader
- > Long-life components provide unprecedented efficiency and reliability

TASKALFA 8001i

- > Up to 80 A4 pages per minute in b/w
- > Standard 3 GB RAM and 320 GB or more HDD storage capacity
- > Standard network and mobile printing as well as colour scanning
- > Optional expandable fax functions: dual fax, network fax and Internet fax
- > Individual paper handling options including booklet and tri-folding
- > Wide range of media up to 300 g/m² and banner printing
- > Comprehensive security functions including IC card reader
- > Long-life components provide unprecedented efficiency and reliability

A3 LASER MULTIFUNCTIONAL

SMALL AND MEDIUM WORK GROUPS

Our high-quality compact A4 colour MFPs are the perfect partner for small- and medium-sized work groups who need professional quality colour and black and white documents and demand a high degree of reliability. Document workflows can be easily optimised with dedicated program keys. In addition, the TASKalfa 266ci offers KYOCERA's open software development platform HyPAS™, which allows for customisations on the device to meet the exact needs of your business. The exceptional durability of KYOCERA's long-life components minimalises down time, costs and its environmental impact.

ECOSYS M6526cdn

- > Up to 26 pages per minute in A4 in colour and b/w
- > Up to 9,600 dpi printing quality with multi-bit technology
- > Time to first copy: 10 / 12 seconds in b/w and colour
- > Double-sided print, copy, scan and fax functionality as standard
- > High security through SSL, IPsec and Private Print functionality
- > Low power consumption with white LED for scan/copy
- > Optional support of various card authentication systems
- > Compact design with little noise
- > Exceptionally low printing costs in its class

TASKALFA 266ci

- > Up to 26 pages per minute in A4 in colour and b/w
- > Time to first copy: 10 / 12 seconds in b/w and colour
- > Colour touch panel provides great ease of use
- > High security through SSL, IPsec and Private Print functionality
- > HyPAS solution platform enables powerful customisations
- > Mobile printing support including AirPrint
- > Compact design with little noise
- > Long-life components for exceptional efficiency and reliability

A3 LASER MULTIFUNCTIONAL

SMALL TO MEDIUM WORK GROUPS

These ECOSYS colour devices suit all of your output requirements. They offer highly advanced functionality that is easily accessed by a full colour touch-panel using a simple wizard-style navigation. No matter if you print, copy, scan or fax in A4 or A3, colour or b/w, this compact device offers a range of paper handling options that will perfectly fit to your individual document management requirements.

FS-C8520MFP

- > Up to 20 pages per minute in A4, and up to 10 pages in A3, in colour and b/w
- > Minimum installation and operation requirements
- > Full colour touch-panel with wizard-style navigation provides ease of use
- > Low power consumption saves energy
- > Long-life components provide unprecedented efficiency and reliability
- > HyPAS™ solution platform enables powerful customisation

FS-C8525MFP

- > Up to 25 pages per minute in A4, and up to 13 pages in A3, in colour and b/w
- > Minimum installation and operation requirements
- > Full colour touch-panel with wizard-style navigation provides ease of use
- > Low power consumption saves energy
- > Long-life components provide unprecedented efficiency and reliability
- > HyPAS™ solution platform enables powerful customisation

A3 LASER MULTIFUNCTIONAL

MEDIUM TO LARGE WORK GROUPS

If you need high-quality colour output in A4/A3 with a high degree of flexibility for your office, you need the TASKalfa A3 colour devices. The advanced KYOCERA technology delivers reliable document management, regardless of whether it's printing, copying or scanning. Thanks to our optional custom software applications and paper handling solutions, you can tailor the TASKalfa to your needs very easily, no matter how your business workflow is organised.

TASKALFA 2551ci

- > Up to 25 A4 pages per minute in colour
- > Standard 3.5 GB RAM + 160 GB HDD for memory and storage
- > Standard network printing and colour scanning
- > Optional fax functions: network fax, dual fax and internet fax
- > Optional one-path duplex document processor scans up to 100 ipm
- > Optional 1,000-sheet-finisher for stapling and punching
- > Optional scan to searchable PDF solution (OCR)
- > Long-life components provide unprecedented efficiency and reliability

TASKALFA 3051ci

- > Up to 30 pages per minute A4 in colour
- > Advanced colour technology for excellent quality
- > Standard 3.5 GB RAM + 160 GB HDD memory storage
- > Wide range of media up to 300 g/m², 305 x 457 mm and banner printing
- > Extensive media handling and finishing options (6 media types supported, booklet and tri folding capability)
- > Optional scan to searchable PDF solution (OCR)
- > Optional EFI Fiery controller
- > Long-life components provide unprecedented efficiency and reliability

TASKALFA 3551ci

- > Up to 35 pages per minute A4 in colour
- > Advanced colour technology for excellent quality
- > Standard 3.5 GB RAM + 160 GB HDD memory storage
- > Wide range of media up to 300 g/m², 305 x 457 mm and banner printing
- > Extensive media handling and finishing options (6 media types supported, booklet and tri folding capability)
- > Optional scan to searchable PDF solution (OCR)
- > Optional EFI Fiery controller
- > Long-life components provide unprecedented efficiency and reliability

TASKALFA 4551ci

- > Up to 45 pages per minute A4 in colour
- > Advanced colour technology for excellent quality
- > Standard 3.5 GB RAM + 320 GB HDD memory storage
- > Wide range of media up to 300 g/m², 305 x 457 mm and banner printing
- > Extensive media handling and finishing options (8 media types supported, booklet and tri folding capability)
- > Optional scan to searchable PDF solution (OCR)
- > Optional EFI Fiery controller
- > Long-life components provide unprecedented efficiency and reliability

A3 LASER MULTIFUNCTIONAL

LARGE WORK GROUPS

This high-speed TASKalfa MFP series prints, copies and scans at remarkable speeds. All these functions can easily be accessed via the large customisable touch panel with intuitive controls. With its advanced colour technology, it offers truly outstanding colour and image quality. The devices have a maximal paper capacity of 7,650 sheets and an output capacity of up to 4,000 sheets, ensuring that it handles the largest print runs reliably.

TASKALFA 5551ci

- > Up to 50 pages per minute A4 in colour
- > Advanced colour technology for excellent quality
- > Standard 3.5 GB RAM + 320 GB HDD memory storage
- > Wide range of media up to 300 g/m², 305 x 457 mm and banner printing
- > Extensive media handling and finishing options (8 media types supported, booklet and tri folding capability)
- > Optional scan to searchable PDF solution (OCR)
- > Optional EFI Fiery controller
- > Long-life components provide unprecedented efficiency and reliability

TASKALFA 6551ci

- > Up to 65-65 A4 pages per minute in b/w and colour
- > 4 GB RAM + 320 GB or more HDD
- > Standard network and mobile printing as well as colour scanning
- > Optional expandable fax functions: dual fax, network fax and Internet fax
- > Excellent image quality thanks to advanced colour technology
- > Individual paper handling options including booklet and tri-folding
- > Comprehensive security functions including IC card reader
- > Long-life components provide unprecedented efficiency and reliability

TASKALFA 7551ci

- > Up to 75-70 A4 pages per minute in b/w and colour
- > 4 GB RAM + 320 GB or more HDD
- > Standard network and mobile printing as well as colour scanning
- > Optional expandable fax functions: dual fax, network fax and Internet fax
- > Excellent image quality thanks to advanced colour technology
- > Individual paper handling options including booklet and tri-folding
- > Comprehensive security functions including IC card reader
- > Long-life components provide unprecedented efficiency and reliability

ORIGINAL KYOCERA TONERS – THE BEST CHOICE

EVERY BUSINESS WANTS TO SAVE MONEY, BUT SOME **COST-CUTTING** MEASURES ARE **COUNTERPRODUCTIVE**, AND MAY CAUSE MORE HARM THAN GOOD. USING NON-ORIGINAL TONER COULD BE ONE SUCH MEASURE.

This is why KYOCERA has spent decades developing technologies that consistently deliver lower-running costs than our competitors. Toner is not a 'one size fits all' consumable and there is only one supplier who can deliver the quality, economy, and reliability you expected when you purchased your KYOCERA device.

Once your business has taken the first step to lowering running costs – using KYOCERA devices – it may seem logical to go one step further by using non-original toner. However, the use of non-original toner might threaten:

- > Economic and cost-saving targets
- > Staff health
- > Device health
- > Document quality
- > Procurement and administration procedures

ECONOMY AND COST-SAVING TARGETS

Your business can save money with genuine toner. Original KYOCERA toners are independently tested to deliver a specific number of pages, and you can be certain that the KYOCERA toner cassette you purchase will deliver the output volume you expect – not the case for non-original toners.

STAFF HEALTH

To satisfy the requirement of Germany's Blue Angel eco-label and create a safer working environment, KYOCERA toner must be free of harmful substances such as:

- > Mercury; cadmium; lead; nickel
- > Chromium VI compounds
- > Dyes that might release carcinogenic particles

DEVICE HEALTH

The long-life design of KYOCERA devices is fundamentally different to other laser products. The durable components in our ECOSYS and TASKalfa multifunctionals are designed to operate in conjunction with original KYOCERA toner.

DOCUMENT QUALITY

The high image quality for which KYOCERA devices are famous is linked to the tiny size and accurate shape of the individual toner particles in an original KYOCERA toner cassette. Non-original toner particles may be too large or poorly shaped to deliver the same quality.

PROCUREMENT AND ADMINISTRATION PROCEDURES

KYOCERA has developed a sophisticated manufacturing and logistics infrastructure that ensures the precise toner you need is available when and where you need it.

WHEN IS IT LEGAL?

It is perfectly legal to manufacture and sell non-original toners. However, purchasers should be aware that none of the assurances made about the quality, economy and reliability of KYOCERA devices can be guaranteed when a non-original toner is used.

WHEN IS IT ILLEGAL?

Whereas a non-original toner is legal, it is illegal for any organisation to manufacture or sell toners that purports to be manufactured by KYOCERA but is not.

IDENTIFYING NON-ORIGINAL TONERS

A non-original toner is manufactured and packaged to look like an original KYOCERA toner. Many purchasers are unaware that they have been supplied with this toner and may remain unaware until quality, economy or reliability problems occur. An original KYOCERA toner has the KYOCERA logo printed on the packaging and moulded into the toner cassette. Additionally, the toner cassette has a holographic 'genuine toner identification label' as well. Furthermore, the latest KYOCERA toners are provided with an RFID chip that allows the device to recognise if original KYOCERA toner is used or not.

WARRANTY – NO LIMITATIONS FOR AUTHENTICITY

Ultimately, it is a customer's decision whether to use a KYOCERA original toner or a third-party toner. However, technical defects or other technical problems caused by using non-original toner will not be covered by the KYOCERA Manufacturer's Warranty. Only use original KYOCERA toners so that there are no limitations to your guarantee.

A LONG-TERM COMMITMENT

ECOSYS printers offer a uniform platform for maximum flexibility and expandability. By choosing KYOCERA, you are not only choosing unrivalled low printing costs, you are also helping to preserve our environment. Choosing KYOCERA can mean producing up to 85% less electronic waste during the life of the printer thanks to ECOSYS technology.

PRESERVING RESOURCES BY AVOIDING WASTE

KYOCERA devices produce significantly less waste because, unlike other makes, the ECOSYS concept does not involve the replacement of the photoconductor drum and developer unit when the toner runs out. For example: an average competitor's toner container includes 60 separately manufactured components, while an original KYOCERA toner cassette includes four.

EASY ADMINISTRATION AND ECOLOGICAL WASTE DISPOSAL

Using original KYOCERA toner can substantially reduce the administrative effort and cost associated with disposing of empty toner cassettes. In most European countries KYOCERA

has established a toner return program. The service is free of charge – just order a collection box for empty KYOCERA toner cassettes. Contact our service provider for an immediate pick-up and replacement with an empty one.

CERTIFIED DOCUMENT FIDELITY

By using KYOCERA devices with original KYOCERA toner, you ensure the authenticity of your documents, contracts and letters. The paper technology foundation and German Federal Institute for Materials Research and Testing have both certified most KYOCERA devices using KYOCERA original toner as being suitable for the printing of notarised documents.

PROTECTING YOUR HEALTH

Most of the KYOCERA ECOSYS devices are rewarded with the Blue Angel eco-label, one of the most famous environmental labels in the world. To earn the Blue Angel eco-label, KYOCERA toners may not contain substances that are classified according to the ordinance on hazardous substances.

By keeping these regulations, the Blue Angel award gives you the peace of mind that the following dangers are excluded:

- > Possible risk of impaired fertility
- > Possible risk of harm to the unborn child
- > Possible risk of irreversible effects
- > Possible risk of cancer (caused by inhalation)

KYOCERA MDS – CONVENIENT SERVICE AND SUPPORT

KYOCERA Managed Document Services (KYOCERA MDS) provides professional services in combination with an integrated range of printers, MFPs and software applications to optimise document workflow, reduce the total cost of ownership and improve environmental sustainability. By making use of KYOCERA's MDS, you can rest assured that you are always getting original high-quality consumables at the right time.

SERVICES PORTFOLIO

CONSULTANCY SERVICES

KYOCERA's Consultancy Services are offered to analyse the customer's current situation and requirements regarding the output devices and related document workflows and business processes. The goal is to design, based on factual information, an optimised, tailored and sustainable solution matching the customer's needs. Consultancy services must balance elements like TCO, document workflows, business processes, security, print policies, environmental sustainability, user profiles, utilisation, measurement and reporting on on-going management.

CUSTOMISATION SERVICES

KYOCERA's Customisation Services are Professional Services with the scope of modifying standard products or developing new software with the final goal of fulfilling customer's needs.

IMPLEMENTATION & TRAINING SERVICES

This category describes Professional Services that focuses, on the one hand, on delivery and implementation of the structures and processes related to a document environment (hardware, software) which was agreed with the customer. Additionally, it focuses on the required knowledge transfer to the customer with the objective of enabling the customer to use, manage, and operate their new document environment as intended.

MAINTENANCE & REPAIR SERVICES

These services have the scope of providing preventive or reactive hardware- and software related actions on a product or service (onsite or remote) with the purpose of securing the desired product functionality or fixing product interruptions, as well as restoring them within the agreed performance commitments (SLA's).

ENVIRONMENTAL SERVICES

From a sustainability perspective, KYOCERA MDS offers effective ways to cut energy consumption and reduce an organisation's environmental impact, the ability to easily digitise documents and automate paper-based workflows. KYOCERA's Environmental Services are not only good for the planet: they also make good business sense and help companies to reduce their costs.

PARTNERING SERVICES

A service category with the scope of improving the partnership conditions between the customer and KYOCERA by offering value-added services along all MDS phases.

CAPTURE & DISTRIBUTION

TRANSFORM HARD COPY DOCUMENT DISTRIBUTION AND STORAGE INTO A SIMPLIFIED, DIGITAL WORKFLOW.

NSi AutoStore

Transform the KYOCERA MFP touchscreen control panel into a feature-rich interface – enabling users to capture, process and route their hard copy documents. Effectively clean up digitised documents, convert them into a variety of file formats and route them to virtually any programmed destination with ease.

PanelPlus

Customise the scanning and copying features on the MFP control panel by creating preset one-touch buttons to maximise document imaging and reduce errors.

PinPoint Scan

Reduce the need for IT support and enhance document security with simplified scanning through a direct PC or Mac connection and user-defined PIN codes.

Teaching Assistant

Streamline the task of creating, printing, grading and analysing multiple-choice tests using bubble sheet forms – allowing educators to concentrate on teaching and lesson plan development.

Smart Fax

SmartFax allows users to send and receive faxes through a cloud server, which enables us to eliminate analogue telephone lines and reduce a company's overall costs.

Smart Scan

SmartScan simplifies and accelerates the changing of file formats, page sizes, resolution, duplex or simplex and other scan settings. It permits users to scan to a shared folder, or an e-mail they either select from an address book or enter on the touchscreen.

ScannerVision

With KYOCERA ScannerVision you will have the ability to capture documents, digitise a document, or taking a digital document and distribute it with an automated process. Our phased approach for capture and distribution allows for efficient scan and store, automated indexing, Data Extraction, OCR, Barcode recognition and many more of a documents.

MOBILE & CLOUD

TAKE ADVANTAGE OF PRINTING AND SCANNING CAPABILITIES ON THE GO FROM TODAY'S MOBILE AND CLOUD TECHNOLOGY.

KYOCERA MyQ

MyQ is a server-based application that streamlines and secures your document management. The document can then be printed from any free device. This helps reduce printing queues and increases the overall security of documents.

SmartPrint

Cost-effective print/copy management and tracking solution ideal for educational institutions and businesses. This cross-platform solution facilitates accounting, secure and mobile print release, print archiving, and mobile print capabilities.

Equitrac

Deliver accountability and control of printed output for corporate, education, healthcare, financial services and legal markets with Nuance Equitrac. Nuance’s solutions are mission-critical to all companies looking to effectively manage their printing environments, reduce printing costs, increase security and promote environmental sustainability.

Card Authentication

Enable administrators to improve device security and track usage for reporting purposes utilising existing HID employee identification cards.

Colour Control

Manage budgets by limiting color usage of KYOCERA color MFPs with PIN codes and the creation of a “Public Access” button, eliminating the need for a passcode in black and white mode.

COST CONTROL & SECURITY

MANAGE COSTS ASSOCIATED WITH YOUR MFP WHILE PROTECTING YOUR COMPANY ASSETS.

	LEGAL	HEALTHCARE	FINANCE	GOVERNMENT	EDUCATION	ENTERPRISE
RF IDEas Blend the need for security and convenience by utilising the existing employee ID badge for authentication and identification through RF IDEas – creating a proven, secure solution that reduces paper and toner costs, and adding an additional layer of security.	✓	✓	✓	✓	✓	✓
Print&Follow Print&Follow SE stores all print jobs on a central MFP server that all devices can access. You can log in at any free device in your office to print your documents, thereby avoiding print queues and increasing the security of your data.	✓	✓	✓	✓	✓	✓
Cortado Personal Printing Client KYOCERA's 'Personal Printing Client' for HyPAS devices allows users to connect directly from the device panel to Cortado's Personal Printing Essentials utility . By entering a PIN or using an RFID card reader the authorised users can now print their documents confidentially in corporate networks.		✓	✓		✓	✓

EFI Fiery

Integrated digital printing solutions, including scalable servers, controllers and RIPS, increase productivity and provide outstanding color and image quality.

KYOeasyprint

KYOeasyprint simplifies all routine document output workflows. Designed for small to medium-sized businesses, this software will increase productivity by turning even the most complex printing routines into a one-click operation.

PRESCRIBE

Create, store and print frequently used forms directly from a KYOCERA MFP, saving on business resources such as network bandwidth, storage space, cost of letterhead or form printing, and costs associated with inventory management.

QuickPrint

QuickPrint offers a server-based solution for the management and printing of forms, templates, and other prefabricated predesigned documents. QuickPrint provides a solution by offering immediate access to documents from the MFP panel for direct printing

PCL Barcode Flash

KYOCERA PCL Barcode Flash 3.0 expands the proven PRESCRIBE barcode printing capabilities of KYOCERA devices with an extensive set of additional PCL-based barcodes. PCL Barcode Flash contains 45 one-dimensional and two-dimensional fonts, PDF 417 and Maxicode.

PCL Barcode Flash

KYOmunicode 1.0 expands your printing options even further, adding a variety of fonts for your global business. KYOmunicode 1.0 enhances your printing options by adding barcode features and Unicode multi-byte font capabilities, meeting the requirements of your global business.

Teaching Assistant

Streamline the task of creating, printing, grading and analysing multiple-choice tests using bubble sheet forms – allowing educators to concentrate on teaching and lesson plan development.

DOCUMENT MANAGEMENT

EASILY CAPTURE, STORE, SHARE AND RETRIEVE YOUR DOCUMENTS.

SmartVault

SMARTVAULT provides convenient, secure access to documents stored centrally. Documents are easily searchable on index or content. A full history (audit trail) is maintained on all document activity. A flexible and powerful permissions structure provides a highly secure environment for all documents. Documents can be automatically imported via fax, email or MS Office.

Laserfiche

Looking to automate and optimise business process and meet strict security and compliance standards? Spending countless time on searching and retrieving documents? With Kyocera's Intelligent Document Management Solutions we enable the automation and optimisation of business processes into workflows.

Our solution meets the highest of standards for corporate governance, audit requirements, security and also enables effortless search and retrieval of documents. KYOCERA's Intelligent Document Management Solution also provides the ability for private onsite and offsite cloud solutions.

DISBURSEMENT RECOVERY

Softlog

Manual Scan, Copy, Print, Email and Telephone Disbursement Recovery is a time consuming process and cost tend to go by the waste side. With an automated Disbursement recovery solution, such costs get allocated directly to a matter and all cost can be recovered.

KYOCERA's Disbursement Recovery solution integrates with your current Practise Management Solution enabling the automated cost allocation of disbursement cost. Increase your firms Disbursement Revenue today with advanced reporting, cost recovery and cost allocation solution that meets strict compliance and audit requirements.
